

How to Easily Determine Your Ring Size

Use a Ring You Already Own Along with This Printable Guide

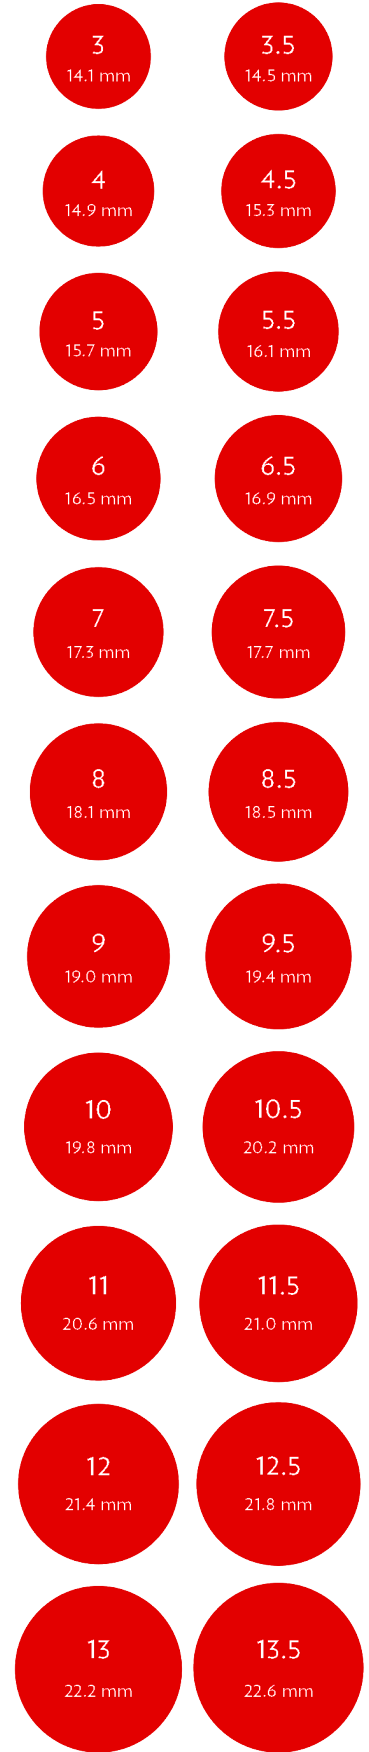

1. Print this guide with your page scaling set to 100%.
2. Take a ring that you already own or have borrowed (if this is for a surprise engagement ring or gift) and place it over the circles to the right.
3. Match **the inside of the ring** to the circle that is nearest in size. The measurements shown refer to the **inside diameter** of the ring.
4. If the ring is between two sizes, you will want to go with the larger size.

Please Note:

Do consider the width of the ring. The wider the band, the tighter it may feel on the finger. You may need to go up by a half size.

Free Resizing

Ring resizing is free of charge for the first year. Feel free to stop in or give us a call with any questions you may have.

If the height of a credit card (54mm) fits inside this outline, your print scale is correct
